TALE CRAFTED ENGLISH

Dear Working Professional,

You're not here because you don't know English.

You're here because you've worked hard – but still feel stuck.

- Maybe your thoughts are clear, but your words don't land right.
- Maybe your heart races when it's time to speak in meetings.
- Maybe you watch others speak confidently and wonder – **“Why not me?”**

We understand.

You're not alone.

Over 900+ professionals just like you have walked into this exact moment and walked out with clarity, control, and communication that actually connects.

At Tale Crafted English, we don't teach you how to speak. We show you how to think in English, express naturally, and speak in a way that reflects your professional self.

Because English isn't just a skill.

It's the difference between staying quiet and finally being heard.

A METHOD THAT ACTUALLY WORKS

We fix what's stopping you from speaking clearly in the first place.

Other classes

- ✗ Teach only grammar, vocabulary, and rules
- ✗ Teach like school lessons

I've been through courses where classes became irregular, and trainers lost interest after the first week. At TCE, it was the opposite the trainers were so committed, and every session was valuable. I finally feel like I'm improving.

FAQS

My grammar is weak. Will this still help me?

Most programs skip the real problem: fear, mental hesitation, and blank mind moments. We start from there — and guide you like a communication coach, not a grammar tutor.

Yes! We teach grammar only where needed, in real conversation context — not as boring theory.

I've joined other courses before but failed. How is this different?

Absolutely. Every class involves active speaking, real-life roleplays, and continuous trainer feedback.

Will I actually get to speak in every class?

- **In personal classes, every session is rescheduled to suit you.**
- **In group classes, trainers guide you back via recap + revision sessions.**

What if I miss classes?

We'll extend your course for free until you feel confident. We don't leave students behind — that's our promise.

What if I still don't improve in 3 months?

Thank you, Kanwal, for today's session. It was really awesome! Starting with the script exercise gave me a clear understanding of how expressions and emotions play a vital role in communication. I gained confidence from today's class to use expressions and emotions effectively while communicating. Thank you once again for your efforts in simplifying the subject and appreciating your hard work.

Hey @Tale Crafted English team! Just wanted to say a heartfelt thank you. The content you've created is honestly amazing, super well thought out, easy to follow, and really practical. It's helped me a lot more than I expected.
Also, having someone like @Riddhi Trainer guiding me has made the whole experience even better. She's so clear, patient, and genuinely supportive. Really appreciate all the effort you put into making this such a great learning journey.

Recently, I came across one incident, 2 weeks ago. I felt really confident and natural while speaking with a hotel staff member.
As I am working from home, I speak rarely with my teammates. It's only twice in a week. Also, my parents and family members are not familiar with English.
One day I was in a hurry to catch a train. But before that, I went to one Rajasthani hotel. While I was entering, I thought the hotel staff would speak broken Tamil or Hindi. But he spoke English very well. Without hesitation or thinking, I spoke to him in English.
It was quite a good conversation. I was ordering, discussing about the train timings and we talked a lot in English.
Coming out of the hotel, I remembered myself before some days, when I spoke English, I used to stumble, I made unwanted pauses, also I was not confident enough.
But that time, It was flawless and natural to me. 🌟 I did not make a mistake. I did not stumble.
It was just around 10 days of my English class. I feel the improvements, my confidence was boosted 🙌 and I am really happy about where I am investing myself. Thank you Kanwaldeep for your time and efforts 🙏 Your support truly matters.

Hi Madhumita madam, I wish to inform you that the journey which I had with you from last week of November to till date has been awesome and I feel strongly why the course has come to an end this week. Thank you so much for being my faculty. I learnt a lot in this stint. I also thank Tale Craft English for creating this platform and I had a chance to meet and interact with you and my fellow learners Salma, Sindhu and Sameer. The best point here I had is one on one conversation and not like one way of communication which happens outside. Madhu madam, your friendly in nature while teaching and your presence of mind, coupled with the way of explaining the lessons are your strengths. I personally enjoyed it. Now, it is time for me to practice a lot as per your advice so that I can have command over the language. The material will help my practice. I sincerely thank you again for your continuous efforts in shaping our language style. Good Teacher. Good platform. Good students with great aspirations. Thanks a ton. Thanks Tale Craft. I really miss you all in one or two days. God bless you all. 🙏

Thank you so much, Madhumita ma'am!
I used to speak only in Telugu, and whenever someone spoke in English, I was afraid to respond. Even in the first few classes, I would just listen and avoid speaking because I felt my English wasn't good enough. I saw others speaking fluently and thought mine was bad, so I stayed silent.
But then, Madhumita ma'am noticed me. She spoke to me, encouraged me, and, along with my supportive team members, helped me feel comfortable speaking in the group. That moment was a turning point for me. I decided to give it a try, started speaking, and made mistakes. But instead of feeling discouraged, I was encouraged to keep going because mistakes are part of learning.
Since that day, I've kept talking, learning, and improving. Now, I can respond confidently and speak without fear. I am truly grateful to you, ma'am, for your support and guidance. You have played a huge role in this transformation. I'm also thankful to Telcraft for giving me this opportunity.
Thank you once again, ma'am! I feel lucky to be your student.

Hello All,
I had a very good experience yesterday when I was randomly asked to open the discussion in one of the high-level meetings.
I used the prep technique to prepare notes in 1-2 minutes, maintained my energy level, and focused on body language, which added a strong aspect to my communication.
A big thank you to Kanwal for building this confidence and swiftly teaching all these techniques

My feedback: 10:14 AM
I completed one month in talecraft english communication institution. Before joining the class, I was avoiding to talk on english. I was not feeling very confident. I was not able to speak more than 1 min. But now I am feeling a little bit confident. I am trying to communicate with friends and colleagues in english. In one month, I learnt a lots of things. Neel Ma'am identified the my mistakes and issues while speaking in English. She is taking exercise on it to minimise those issues and mistakes. She suggested few things also. I am also working on it. I am seeing difference in myself and I am realising it. According to me, I am blessed to have mentor like you. I am looking forward to learn new things from you.
